## Welcome to the 2025 Annual Convention and Trade Show, presented by the Florida Ground Water Association.

This event has become one of the largest groundwater gatherings in the nation, and we're excited to see it continue to thrive thanks to your involvement and support—thank you! As you explore this year's yearbook, you'll find numerous opportunities to network with vendors, colleagues, and friends—both familiar and new.

The theme for the 2025 Annual Convention is Modern Challenges, Modern Solutions: Groundwater 2025. We hope you leave this year's event with at least one new insight or technique to help you stay ahead of the curve. A special thank you goes to our Convention Committee for their dedication in curating an exceptional lineup of presentations for our members. In addition to the informative sessions, we're excited about the Thursday Reception, Silent Auction, and our sold-out trade show, featuring over 85 exhibiting companies.

This convention wouldn't be possible without the support of our sponsors and exhibitors. Be sure to visit the trade show hall on Thursday and Friday to explore the latest products, services, and techniques. Plus, you'll earn two (2) CE credits for each day you attend!

Finally, a special thank you to our administrative team – Danielle Jessup, Executive Director, and Elizabeth Lane, Conference Planner. Your exceptional support throughout the year, and particularly your invaluable help with our annual meeting, has been greatly appreciated. Your dedication, attention to detail, and hard work are truly key to our success.

As a reminder, the convention provides the 12 hours of approved CE credit required to renew or obtain your license.

We're grateful to have you here with us to celebrate our profession, and we hope you enjoy the convention!

Sincerely,

**Michael Johnson**  
FGWA President

# FGWA CONVENTION TOP SUPPORTERS

THANK YOU TO THE FOLLOWING COMPANIES WHO HELP MAKE THIS EVENT POSSIBLE

*The Pump People*

## Independent Water Chamber: CAD2

- Allows diaphragms to be sized properly for each tank.
- Insulating air gap surrounds water chamber and prevents condensation.
- Impregnated with anti-microbial silver ion to inhibit bacterial growth.

## Tank Finish

- Well-Rite Plus and Outdoor Challenger: coated with 8-10 mils of high-mastic epoxy and a 2-part urethane finish for the best salt spray and UV characteristics on the market.

## Flex-Lite: Lightweight and Non-Corrosive

- All composite construction and our CAD2 diaphragm combine to create the only non-metallic pressure tank with an independent water chamber on the market.

## Water Connection

- Stainless steel (PCFR & WR) or durable, schedule 80 PVC water connections stand up to the toughest conditions.

# IMPORTANT CONVENTION INFORMATION

## CONTINUING EDUCATION CREDITS

To comply with the DEP Manual for Approved Coursework, all attendees MUST remain in the classroom for the entire session in order to receive credit for the course. Anyone entering the classroom after the start time will NOT receive credit for the course and no exceptions will be made. At the end of each course, a code will be shared by the speaker. Be sure to write this code on the certificate of attendance form to earn CE credit for that course.

Trade Show CE credits must be earned by receiving a code at the top of each hour. Attendees must remain in the hall for the full two hours and receive both codes to obtain the 2 S/B CE credits. Codes will be announced on Thursday at 4 PM and 5 PM, and Friday at 10 AM and 11 AM.

You will need to obtain a minimum of 6 CEC's in the R/R category and a maximum of 6 CEC's in the S/B category. You may pay to convert your CEC's at any time during the Convention by visiting the Registration Desk. Each CE credit is \$14.

**VIQUA Arros™**

The only UV residential water treatment system that:

- Streamlines installation
- Minimizes maintenance hassles
- Optimizes treatment performance

Now you've got time for more sales, more customer satisfaction, and more living.

Visit the VIQUA booth or go online to [VIQUA.com/Arros](http://VIQUA.com/Arros) to learn more.

## COURSEWORK/ATTENDEE CERTIFICATE

Attendees will receive a certificate at registration checkin. In order to obtain credit for the coursework, you must write the code for each session attended. Be sure to also include the codes obtained from the trade show hall on both days. The code will be provided by the speaker. At the completion of the convention, you will drop off a copy of your certificate to the registration desk. This is required whether you plan to convert your CE credits onsite or not.

## CONVENTION EVALUATION FORM

The convention evaluation form is included in your attendee registration packet. Make sure to complete the form for each course you attend and return to the FGWA registration desk at the conclusion of the convention.

## JOIN US AT THE THURSDAY RECEPTION

Join us at the Thursday Reception sponsored by *Drilling Equipment Sales* and *Geoprobe Systems*. The reception will include our Annual Silent Auction, this year benefiting the FGWA John Kriska Memorial Scholarship Fund and the advancement of the FGWA Mission. Registered attendees also receive 1 free drink ticket in their attendee packet to be used at the reception for a beverage of your choice.

## TRADE SHOW HALL GRAND OPENING

Join us for the Trade Show Hall grand opening on Thursday, May 29 at 3:00 PM. Registered attendees receive 1 free drink ticket in their attendee packet to be used in the trade show hall for a beverage of your choice. The sold-out trade show hall allows you to visit with more than 85 exhibitors. Raffle tickets can be earned by visiting booths to learn more about their products and services. Place your raffle tickets in the bucket near the Preferred Pump & Equipment Booth for a chance to win. Winners will be announced at the close of the Trade Show Hall on both Thursday at 5:00 PM and Friday at 11:00 AM. You must be present to win!

## COFFEE BREAKS AND BREAKFAST

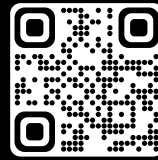

**Thursday, May 29** - Coffee will be provided to registered attendees starting at 7:00 AM in the Convention Center foyer.

**Thursday, May 29** - A snack break sponsored by Sun-Star Electric and Hitachi will be provided in the foyer from 9:40 - 9:50 AM.

**Friday, May 30** - Coffee and breakfast will be provided to attendees with full registration only from 9:00 AM - 11:00 AM in the Trade Show Hall.

# 2025 SCHEDULE OF EVENTS

## WEDNESDAY • MAY 28

7:30 AM – 8:30 AM

**Golf Tournament Check-In & Breakfast**

8:30 AM

**NEW TIME!**

**FGWA Bob Caswell Memorial Golf Tournament** (separate registration required)

*Sponsored by: Goulds Water Technology*

4:00 PM – 5:00 PM

**1 S/B  
Credit**

**Franklin Electric VFD Lab - Hands on large drive training**

(Pre-registration required) – Harmony

*Presented by Bob Lilland, Franklin Electric*

In this course, we will discuss how to size a large horsepower drive and the considerations that that need to be made with electrical power supply. We will learn how to program a large drive and how to wire in external components.

5:00 PM – 6:30 PM

**Convention Registration Desk Open** *Sponsored by North South Supply*

*– Omni Orlando Resort at ChampionsGate Convention Center Foyer*

## THURSDAY • MAY 29

7:00 AM – 5:30 PM

**Convention Registration Desk Open** *Sponsored by North South Supply*

*– Omni Orlando Resort at ChampionsGate Convention Center Foyer*

7:00 AM – 7:50 AM

**1 S/B  
Credit**

**Franklin Electric VFD Lab - Hands on large drive training**

(Pre-registration required) – Harmony

**See course description listed above: Wed. 4-5pm.**

7:00 AM – 8:30 AM

**Attendee Coffee Break** – *Omni Orlando Resort at ChampionsGate Convention Center Foyer*

8:00 AM – 9:40 AM

**2 R/R  
Credits**

**Water Management District Q&A Panel Discussion** – *National Ballroom, inside the Omni Hotel*

*Presented by Carlos Herd, P.G., SJRWMD; David King, SRWMD; David Arnold, P.G, SWFWMD; Richard Illsley, SFWMD*

Representatives from the state's Water Management Districts will be on hand to present pertinent issues facing their districts and how this will affect water well contractors. Attendees will be able to ask specific questions relating to issues they face and hear about issues facing other parts of the state.

9:40 AM – 9:50 AM

**Attendee Snack Break** – *Omni Orlando Resort at ChampionsGate Convention Center Foyer*

*Sponsored by: Sun-Star Electric / Hitachi*

9:50 AM – 10:40 AM

### SESSION 1

OR

### SESSION 2

**1 R/R  
Credit**

**Chlorine, the Most Misunderstood Chemical in the Ground Water Industry**

– *National Ballroom, inside the Omni Hotel*

*Presented by Michael Whittaker, Cotey Chemical Corp.*

Discuss the different types of well sanitizing products available to contractors, advantages vs. disadvantages of each along with best practices for application. This session will also discuss well rehabilitation methods to be used prior to disinfecting wells with lost production. Case studies of projects involving these methods will be shared.

**1 R/R  
Credit**

**Sonic Drilling/Sampling**

– *Outside Demo near tennis courts*

*Presented by Greg Halliday, Eijkelkamp North America*

Experience the next level in drilling technology with our live demonstration of sonic drilling and sampling. See firsthand how this innovative method delivers precise, efficient, and minimally invasive results for even the most challenging subsurface conditions.

**1 S/B  
Credit**

**Franklin Electric VFD Lab - Hands on large drive training**

(Pre-registration required) – Harmony

**See course description listed above: Wed. 4-5pm.**

*continued*

# Providing the care-free moments you deserve

Whether you're doing the laundry, giving the kids a bath, watering the garden or splashing around in the sprinkler, or doing all of those things at once – you expect a constant, continuous flow of water. The Aquavar SOLO<sup>2</sup> constant pressure system, by Goulds Water Technology, provides those care-free moments by delivering the pressure needed for your household demand effortlessly.

Learn more about the  
Aquavar SOLO<sup>2</sup>

10:50 AM — 11:40 AM

## SESSION 1

OR

## SESSION 2

1 R/R  
Credit

**Preparing for the Water Well Contractor Exam** – National Ballroom, inside the Omni Hotel  
*Presented by Warren Zwanka, SRWMD*

The economic landscape is improving, Florida continues to grow, and well drillers are in high demand. This course is designed to help drillers become Florida licensed water well contractors; and it's also a great refresher for those already licensed. Don't get left behind in Florida's well contracting business boom! The course will cover licensing requirements, applicable rules and regulations, test structure, and study tips for each topic covered on the exam.

1 S/B  
Credit

**Seeing in Dirty Water with a Down Hole Video Camera** – Osceola A/B, inside the Convention Center  
*Presented by Raymond Roerick, Well-Vu Cameras*

Seeing in Dirty Water with a Down Hole Video Camera: A generic presentation for all brands of underwater cameras to be able to make a perfect video in the muddiest/dirtiest water. This seminar will cover issues such as the history of underwater cameras, different areas of uses of underwater cameras, several different techniques to see in "cloudy water", lighting issues, retrieving items in boreholes, suspended solids and flocking agents to clear a well, digital recording and marketing your camera and company as a new source of profit.

11:40 AM – 1:15 PM

### Lunch on Your Own

1:15 PM – 2:55 PM

2 R/R  
Credits

**FGWA Annual Membership Meeting** *Presented by FGWA Leadership and Guests*  
– National Ballroom, inside the Omni Hotel

This update will provide FGWA members with information on the latest news and business for the association and what can be expected for the remainder of 2025 and heading into 2026. We will also present an update on the 2025 legislative session and what bills will have an impact on FGWA members and the water well construction industry. In addition, updates will be shared by Water Systems Council, the National Ground Water Association, and Chapters of the FGWA.

3:00 PM – 5:00 PM

2 S/B  
Credits

**Trade Show Hall** – Osceola Ballroom, inside the Convention Center  
*Convention Lounge Sponsored by: Preferred Pump & Equipment*

5:00 PM – 6:00 PM

**Reception & Silent Auction** – Omni Orlando Resort at ChampionsGate Convention Center Foyer and Outside Porte Cochere *Sponsored by: Drilling Equipment Sales and Geoprobe Systems*

**Putt-Putt Challenge** *Sponsored by Coast Pump Water Technologies, Inc.*

# FRIDAY • MAY 30

7:00 AM – 8:00 AM

**Attendee Coffee** – Omni Orlando Resort at ChampionsGate Convention Center Foyer

7:00 AM – 12:40 PM

**Convention Registration Desk Open** *Sponsored by North South Supply*  
– Omni Orlando Resort at ChampionsGate Convention Center Foyer

8:00 AM – 8:50 AM

## SESSION 1

OR

## SESSION 2

1 S/B  
Credit

**Solar Water Solutions** – National Ballroom, inside the Omni Hotel  
*Presented by Alan Bixler, Grundfos Pumps*

In this course we will explore solar pumping technology. We will discuss types of solar controllers for pumps and different pump technologies. We will discuss information required to appropriately select a solar pump for a specific application and discuss the limitations of solar pumping. Participants should leave with a better understanding of how to discuss solar pumping options with end users that desire to pursue solar as an option.

1 R/R  
Credit

**Drilling Fluid and Cement Management Requirements When Constructing Monitor Wells for the Southwest Florida Water Management District**  
– Outside Porte Cochere  
*Presented by Chris Tomlinson, SWFWMD*

The presentation will provide an overview of drilling fluid management and testing along with cement management and testing required when constructing monitor wells for the Southwest Florida Water Management District (District). This presentation provides data that will assist in meeting applicable criteria set forth in Chapters 40D- 3 and 62-532, Florida Administrative Code (F.A.C.).

1 S/B  
Credit

**Franklin Electric VFD Lab - Hands on large drive training** *(Pre-registration required)*  
– Harmony *See course description listed above: Wed. 4-5pm.*

### Key

-  Franklin Electric VFD Course (pre-registration required) - Harmony Meeting Room
-  Session Room on Thursday & Friday - Osceola Ballroom A&B
-  Session Room on Thursday & Friday - National Ballroom A&B
-  Exhibit Hall on Thursday & Friday - Osceola Ballroom C-E
-  Outdoor Rigs, Thursday Reception, Friday Outdoor Session - Porte-Cochere/Covered Drive

A large yellow industrial truck, likely a water well drilling rig, is the central focus of the image. It is parked on a grassy area with trees in the background. A worker wearing a yellow hard hat and a grey shirt is kneeling next to the truck, working on a component. The truck is equipped with various pipes, hoses, and mechanical parts. The overall scene suggests a professional water service operation.

# MEET YOUR SPEAKERS

## DAVID ARNOLD, P.G.

David Arnold, P.G., is the Southwest Florida Water Management District's (District's) well construction manager overseeing permitted well construction activities within a 16-county jurisdiction, which includes three county permitting/compliance delegations. Arnold has more than 12 years of experience in the private sector in contamination assessment/

remediation, geotechnical investigations and offshore exploratory drilling. Additionally, Arnold has more than 16 years of experience in well design, permitting, compliance, policy, and contractor licensing at the District. Arnold has been in his current position for more than eight years and continues the District's dedication to a common-sense approach in the well construction permitting and compliance program with a strong dedication to protecting the groundwater resource. Arnold earned a Bachelor of Science Degree in Geology from the University of South Florida and is a Florida licensed Professional Geologist.

## ALAN BIXLER

Alan Bixler is Field Sales Manager for the SE Region at Grundfos Pumps. Alan has been with Grundfos for 18 years in multiple technical roles. In his current role he supports Grundfos' distribution partners and contractors with the application and technical knowledge of Grundfos products in water systems and irrigation.

## GREG HALLIDAY

Greg Halliday is a seasoned professional with over 30 years of extensive experience in the drilling industry. As the Lead Sonic Trainer and Northeast Sales Manager at Eijkelkamp North America, Greg brings a wealth of knowledge and expertise to his role, serving as a driving force behind the company's success and innovation. Throughout

his career, Greg has demonstrated a deep passion for drilling technology and a commitment to excellence in every aspect of his work. His journey in the industry has seen him tackle a wide range of challenges and projects, from environmental drilling for soil and groundwater remediation to geotechnical investigations for construction and infrastructure development. Greg's profound understanding of Sonic Drilling technology has made him a trusted advisor and mentor to countless professionals in the field. As the Lead Sonic Trainer, he plays a pivotal role in educating and empowering drilling teams worldwide, equipping them with the skills and knowledge needed to harness the full potential of Sonic Drilling solutions. In his capacity as Northeast Sales Manager, Greg leverages his vast industry experience

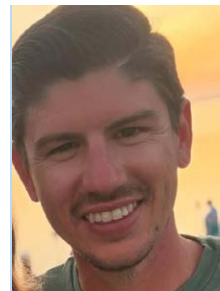

and unparalleled expertise to forge strong relationships with clients and drive business growth across the region. His strategic vision and customer-centric approach have earned him a reputation for delivering exceptional results and exceeding client expectations. Greg's dedication to continuous learning and innovation underscores his commitment to pushing the boundaries of drilling technology and driving positive change in the industry. His leadership, integrity, and unwavering passion for excellence make him a valuable asset to Eijkelkamp North America and a respected figure in the drilling community. With a proven track record of success and a deep-seated commitment to excellence, Greg Halliday stands as a true leader and trailblazer in the field of drilling technology, inspiring others to strive for excellence and driving innovation in the pursuit of industry advancement.

## CARLOS HERD, P.G., SJRWMD

Carlos has 39 years' experience in well design/siting/construction/abandonment, water management, water resources, and environmental consulting. He graduated with a Bachelor of Science degree in Geology from Eastern Kentucky University in 1985. He is a licensed water well contractor in Florida

(#11154) and is a licensed Professional Geologist in Florida, Tennessee, and Texas. He is currently a Supervising Hydrologist for the St. Johns River Water Management District, which includes consumptive use permitting. He is also the current Water Well Construction Program Manager for the District which includes review and approval of all well construction permits issued by the District. His previous positions included working with MFLs, resource evaluation, water supply planning, FDOT mitigation, springs restoration, FEMA risk mapping, and resource data collection.

## RICHARD ILLSLEY

Richard Illsley, is the Water Well Administer at the South Florida Water Management. Mr. Illsley has 12 years' experience working in the private sector and State Government with work experience in well construction, environmental consulting, and water use regulation.

## DAVID KING, SRWMD

David is the Regulatory Office Chief at Suwannee River Water Management District, Office of Water Use and Water Well Construction.

## MEET YOUR SPEAKERS, CONTINUED

### BOB LILLAND

Bob has been a Field Service Engineer for Franklin Electric, a worldwide leader in the submersible motor industry, for over 6 years. Bob's job consists of assisting contractors in the Florida, Georgia, Alabama and the Caribbean Islands, with issues with water well pumps, starters, VFD drives, solar, etc. Bob also does training seminars to help educate

contractors with installation and troubleshooting of these products. Bob is a third-generation water well contractor, being in the industry for 35 years. Bob has held a Water Well Contractors license for over 20 years. He was the owner of Blue Water Pump Service in Tampa, FL for 15 years. Bob was the President of the West Coast Chapter of the Florida Ground Water Association for 4 years and has been on the board of directors for over 12 years. Bob is currently on the Board of Directors for the Florida Ground Water Association and the Manufacturer Board of Directors for the National Ground Water Association.

### TROOPER KEVIN NELMS

Trooper Kevin Nelms, Florida Highway Patrol / Commercial Vehicle Enforcement Education: Kevin Nelms graduated from Saint Johns River State College in June 2005 where he obtained his Criminal Justice Certification. Kevin is currently assigned to the CVE

training unit in the Orlando district. He is also a certified federal instructor to teach classes related to commercial vehicle enforcement. Trooper Nelms has presented for the FGWA in the past.

### RAYMOND ROERICK

Raymond Roerick is currently the International Sales Manager for Well-Vu Cameras and has served in this role for 27 years. Well-Vu develops, designs and promotes the use of down-hole video cameras in daily well services. Prior to this, Raymond was the Owner of Pumps Plus, Inc and owner of Arrowhead Well & Pump Inc. where he owned

and operated 3 drilling rigs, pump rig and installed wells and water systems. Raymond has also served in many capacities in the sales industry from General Manager of Minnesota Pump & Supply Inc., Territory Representative for MinnWell/Westburne Supply, and Sales representative for Soderholm and Associates. Raymond also has 16 years of schooling to include courses put on by Fletcher Driscoll at the U of Wisconsin, most manufacturing schools and many college courses on business mgt, and dozens of sales seminars and ground water engineering practices.

### CHRIS TOMLINSON

Chris Tomlinson is a Florida-licensed water well contractor with 43 years of experience. Mr. Tomlinson has been employed by the District since 1991, overseeing drilling activities related to wireline core drilling, aquifer exploration, and contracted monitor well construction. Mr. Tomlinson has helped incorporate standards for quality assurance / quality control

in the design and construction of District monitor wells, including drilling fluids management and grouting activities.

### MICHAEL WHITTAKER

Michael Whittaker has extensive experience in the water systems industry. Michael is currently the Regional Sales Manager for Cotey Chemical Corporation and has been in this role since 2018. Prior to his time in sales, he was President of his family business – Franklin Well Drilling, where he was primarily responsible for the complete

installation of residential water systems from drilling the well to setting the pump and making the final connection to the customers home.

### WARREN ZWANKA

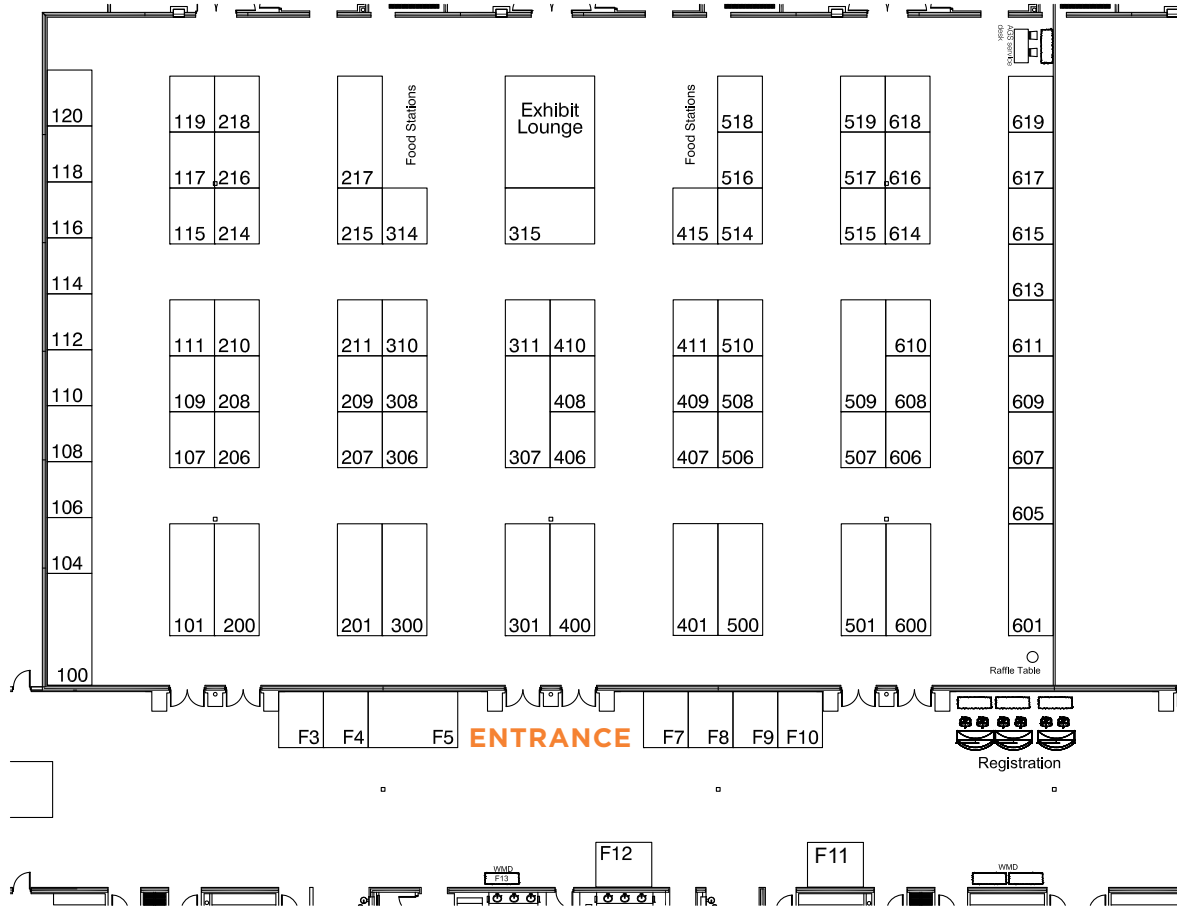

Warren Zwanka is Suwannee River Water Management District's Chief Hydrogeologist. His 30-year career at both Suwannee and St. Johns River Water Management District has included abandoned artesian well plugging, aquifer performance testing, consumptive use permitting, geophysical logging, groundwater monitoring, potentiometric surface

mapping, regional water supply planning, rulemaking, stream gaging, and monitoring well design and construction. He holds a BS in Geology from the University of South Carolina and a MS in Soil and Water Science from the University of Florida, is a licensed Professional Geologist in Florida and Georgia, and is a Licensed Water Well Contractor.

## A.O. SMITH WATER SYSTEMS

### Booth: 517

East Franklin, Tennessee

Phone: 407/509-3788

Website: [aowatersystems.com](http://aowatersystems.com)

The premier manufacture of diaphragm, hydronumatic glasslined and glvanized water well tanks.

## A.O. SMITH WATER TREATMENT / WATER RIGHT

### Booth: 506

1900 Prospect Court, Appleton, Wisconsin 54914

Phone: 920/816-5660

Website: [www.water-right.com](http://www.water-right.com)

Water-Right has created innovative, highly effective solutions since 1963. Backed by comprehensive support and education, our expertly designed extensive water treatment product lines include water softeners, filtration systems, drinking water filtration, and more.

## ACKER DRILL COMPANY

### Booth: 406

PO Box 830, Scranton, Pennsylvania 18501

Phone: 570/586-2061

Website: [www.ackerdrill.com](http://www.ackerdrill.com)

Founded in 1916, Acker Drill Company is a leading U.S. manufacturer of drill rigs and tooling for geotechnical, environmental, mineral exploration, mining, and civil engineering industries. Renowned for versatile, high-quality equipment and custom-engineered solutions, Acker has been exporting worldwide since 1960.

## AMERICAN GRANBY, INC.

### Booth: 411

7652 Morgan Rd, Loverpool, New York 13090

Phone: 315/451-110

Website: [www.americangranby.com](http://www.americangranby.com)

The Original Source of Vendor Consolidation, offering 10,000 items from over 200 vendors in pump and well, plumbing, irrigation and pool and spa industries.

## AMERICAN-MARSH PUMPS, A WILO BRAND

### Booth: 605

550 E. South St., Collierville, Tennessee 38017

Phone: 901/860-2300

Website: [www.american-marsh.com](http://www.american-marsh.com)

For 150 years, American-Marsh Pumps has provided pumps for the industrial, municipal, agricultural, commercial and fire protection markets. The pump offerings include end suction, process sump, non-clog self-priming, split-case and ANSI process as well as vertical and submersible turbines. The American-Marsh campus, featuring a 300,000-gallon test laboratory, located in Collierville, Tennessee, was acquired by WILO USA LLC in 2019.

## AMS POWERPROBE

### Booth: 119

3803 Grahams Port Ln, Snellville, Georgia 30039-4118

Phone: 706/680-9015

Website: [www.ams-samplers.com](http://www.ams-samplers.com)

For 75 years, AMS has been Equipping the World to Sample the Earth. AMS PowerProbe direct push and auger drill rigs, Well Management Systems, and Hand Tools are used by industry professionals, regulators, and academics for environmental, agricultural, mining, and construction applications that require sampling soil, soil vapor, and groundwater.

## AMTROL, INC.

### Booth: 108

3380 Agricultural Center Drive, St. Augustine, Florida 32092

Phone: 904/827-8788

Website: [www.amtrol.com](http://www.amtrol.com)

AMTROL products include a comprehensive array of water system solutions for storage, treatment, heating, expansion and flow control serving the residential and industrial markets.

## ASCENTIUM CAPITAL

The Water Systems Council's mission is to protect and promote well water systems. Come by our booth to learn more about our legal, legislative, and educational work as the voice for the water well industry and pick up a copy of the 2025 State of the US Water Well Industry report!

## WEBTROL PUMPS

### Booth: 314

8417 New Hampshire, St. Louis, Missouri 63126  
Phone: 314/631-9200  
Website: [www.webtrol.com](http://www.webtrol.com)  
WEBTROL is one of the last family-owned and operated pump companies in the U.S. Our passion is providing genuine value to you though service and support. Because of this commitment, and frustrations in dealing with other pump companies, thousands of dealers have turned to WEBTROL for their water well, industrial and wastewater pump needs.

A person wearing a green t-shirt, a light blue baseball cap, and black gloves is kneeling in a garden. They are working on an irrigation system, specifically adjusting a pop-up riser. In the background, there are various garden items including a red wheelbarrow, a blue bucket, and some coiled black hoses. The scene is set in a lush green garden with trees and bushes.

# Get Irrigated!

Looking to elevate your irrigation game? LOOK NO FURTHER! At DSI we specialize in providing top-notch wholesale turf irrigation solutions tailored to meet your business needs. We've got you covered for everything you need to make that outdoor space work in any application - sprinklers, lighting, water features, and landscape planning.

## PERKS OF BEING A DSI CUSTOMER

- Delivery for your convenience
- All-inclusive trips to show our gratitude
- Training opportunities
- Online customer portal
- On-site inventory program

# FGWA ANNUAL BUSINESS MEETING & ELECTIONS

**THURSDAY, MAY 29, 2025 | 1:15 PM – 2:55 PM**

*National Ballroom*

**The FGWA Annual Business Meeting is a fantastic opportunity to learn more about the state of the Association and industry**, and to hear from candidates seeking election to the FGWA Board of Directors. All are welcome to attend, however only delegates may cast a vote. Delegates are requested to sit towards the front of the room. Delegate numbers are pre-printed on your name badge. You will use this code to access the ballot. Delegates should have also received their delegate packet at check-in. Five candidates are running for five vacancies on the FGWA Board of Directors. Per the FGWA Bylaws, the delegates are responsible for electing all Directors to the FGWA Board. The Board of Directors is responsible for electing the Officers to the FGWA. Candidates are listed below in alphabetical order.

**Bob Lilland**  
**– Franklin Electric**  
**(INCUMBENT)**

Bob is a third-generation water well contractor, serving the industry for 35 years. Bob has held a Water Well Contractors license for over 20 years. He was the owner of Blue Water Pump Service in Tampa, FL for 15 years.

Currently, Bob is a Field Service Engineer for Franklin Electric, for over 6 years. Bob's job consists of assisting contractors in the Florida, Georgia, Alabama and the Caribbean Islands, with issues with water well pumps, starters, VFD drives, solar, etc. Bob also does training seminars to help educate contractors with installation and troubleshooting of these products. Previously Bob served as the President of the West Coast Chapter of the FGWA for 4 years and on the board of directors for over 12 years. Bob is currently on the Board of Directors for the Florida Ground Water Association and the Manufacturer Board for the National Ground Water Association. "Being involved with FGWA for so long, my biggest pleasure is working on the scholarship committee and carrying on the tradition of supporting continued higher education for our members and their families. I'd like to continue that work and thank you for your consideration."

**Dan Ringdahl – Florida**  
**Design Drilling LLC**  
**(INCUMBENT)**

Daniel Ringdahl is a seasoned professional with a rich legacy in the well-drilling industry. As the CEO of Florida Design Drilling LLC, he brings over 45 years of experience, including 35 years dedicated to the state of Florida.

Daniel hails from a long line of well drillers, being a proud third generation well driller. His extensive knowledge includes drilling for a wide range of applications, such as public water supply wells across various aquifers, deep injection wells, ASR (Alternative Water Supply) wells, and numerous types of

monitoring wells. Throughout his career, Daniel has gained proficiency in various hydrogeological testing methods, including aquifer tests, single and dual packer testing, coring, mechanical integrity testing, and well acidization. In addition, he is well-versed in multiple drilling procedures, such as mud rotary, cable tool, reverse air, straight air, straight water, and the use of biodegradable fluids. Daniel's commitment to excellence and sustainability in water resource management has made him a respected figure in the industry. His passion for well drilling and dedication to quality has positioned him as a leader, contributing significantly to the growth and development of water supply systems in Florida. Under his guidance, Florida Design Drilling LLC continues to thrive, providing reliable and innovative well-drilling solutions to meet the needs of their clients. Daniel currently serves as the Vice President of the Florida Ground Water Association. Daniel is a licensed Water Well Contractor.

**Jeremy Skinner**  
**– Earl's Well Drilling &**  
**Pump Service, Inc.**

With nearly 30 years of hands-on experience in the well drilling industry, Jeremy Skinner is a dedicated professional with a deep-rooted passion for groundwater systems and water quality. As the owner of Earl's

Well Drilling and Pump Service, Jeremy carries forward the proud legacy of his grandfather, Earl Muffett, an honest and hardworking entrepreneur who built the company on integrity, quality, and service. Earl's Well Drilling has been a trusted name in the industry since 1968, serving Marion and surrounding counties with expertise in commercial, agricultural, and residential well drilling, pump services, and water filtration systems. Growing up in the family business, Jeremy knew from a young age that he wanted to follow in his grandfather's footsteps. His lifelong commitment to ensuring safe, clean, and reliable water for his community reflects the values instilled in him from an early age. In 2019, Jeremy purchased the company from his uncle and grandfather,

officially becoming the third-generation owner. Under his leadership, the company continues to evolve while upholding its strong reputation for quality workmanship, innovation, and customer-first service. With a comprehensive understanding of well construction, water treatment, and pump systems, Jeremy has become a respected expert in the field. His technical knowledge and hands-on approach make him a valuable asset to the groundwater industry. Beyond business, Jeremy is a dedicated community supporter. He actively contributes to organizations such as Interfaith Emergency Services, the Marion County Youth Fair, and Saving Mercy, believing that giving back is just as important as the work he does every day. At his core, Jeremy is a family man. His four children—three boys and one girl—are the heart of his life. Whether it's cheering them on at sporting events or spending time together after a long day, Jeremy prioritizes his role as a father just as much as his career. With his extensive experience, technical expertise, and unwavering dedication to water safety and quality, Jeremy is committed to the continued advancement and responsible management of Florida's groundwater resources for generations to come.

### **Wayne Smith – Custom Drilling Services, Inc. (INCUMBENT)**

Wayne D. Smith is a professional drilling contractor licensed in four Southern states. As a third generation drilling contractor, Wayne is a proud graduate of the University of Illinois-Springfield with a Bachelor of Arts

degree in Economics. Over the years he has earned further advanced degrees in the drilling industry school of Hard Knocks. Wayne and his wife Lynne, of 35 years, own and run Custom Drilling Services, Inc. and NUCO Pump & Well Services, LLC from Mulberry, Florida. Prior to launching a drilling company in Florida, Wayne grew up and worked for

Smith Drilling Company, Inc., an oil and gas contract drilling firm, with operations in IL, IN, KY, and WV. His first job was in "management" in charge of a putty knife, paint scraper, and wire brush when he was cleaning oilfield equipment. His employment later evolved into working with production crews laying flow lines, repairing leaks, setting tanks, and oilfield plumbing. Once driving he began moving oilfield equipment and providing dozer support for rig moves. When Wayne started his professional career at Custom Drilling Services, Inc., decades ago, they enjoyed many successes and achievements over the last 35 years, most of which includes working with many dedicated, multi-decade employees. Beyond his professional accomplishments, he says his single greatest achievement is celebrated by his marriage to his wife Lynne and working together every day. Following that would be their two children, now in their 30's, who have made their own progress professionally. In his personal time, Wayne enjoys private flying, US and International travel, shooting competitive sporting clays, fishing, and hunting. When not engaged in any of the earlier activities they find themselves watching the East coast sunrises together and relaxing. Their life journey together is still young with many mile posts ahead.

### **Mike Ward – Clyde's Well Service, Inc. (INCUMBENT)**

Mike Ward is the owner of Clyde's Well Service in Northwest Florida and has been a licensed contractor for over 26 years. Mike is a Past President of the Florida Ground Water Association, currently still serving on the FGWA

Board of Directors for over 20 years. Mike is chair of the FGWA Rules and Regulations Committee, Continuing Education Committee, and Bylaws Committee. Mike is also a dedicated member of the Florida Department of Environmental Protection Workgroup, representing the interests of the association and water well contractors in Florida. Mike was recently elected to the National Ground Water Association's Contractor Division Board of Directors.

**WELLMASTER™**

Make a Difference.

# PRESS x PRESS COUPLINGS

Wellmaster's **no-thread, no-weld** Press x Press® couplings help drillers reduce input costs and project time versus conventional connections resulting in increased profitability.

Available for 2", 4", 5", 6", 7", 8" and 10" casing, Press x Press® casing connections can be hammered and/or pulled back during percussion drilling with ease. The friction taper design has definitive advantages over existing options, including the ability to accommodate plain end rather than beveled or threaded casing.

#### Press Fit Connection:

- Hydrottested to **2,225 PSI** with no leaks.
- Pull tested to **38,000 lbs.** of pull without breaking the connection.
- Recognized as an equivalent connection by the Department of Environmental Protection and all five water management districts in Florida.
